

CASE STUDY

Get A Leg Up: Swift Recovery with AuraWell

Challenge

A 16-year-old high school football player sustained a fracture to the right fibula while participating in football practice. He continued to have moderate to severe pain with all weight-bearing activities including walking. Despite the original injury being healed he was still having the inflammation and swelling. Sports injuries can have a devastating impact on athletes, particularly when extended recovery periods hinder their ability to perform at their best.

Solution

Our goal was to alleviate discomfort, reduce chronic inflammation, and enable a successful return to sports.

After four AuraWell treatment sessions, the high school football player experienced significant improvements:

Swift Recovery: Despite experiencing pain and inflammation ten weeks post-injury, the athlete achieved pain-free performance in activities and successfully returned to the sport.

Get AuraWell Today. Experience the transformative benefits of AuraWell PEMF. Start your journey to a faster recovery by acquiring AuraWell today. Regain full functionality with this innovative technology.

Results

Effective Pain Management: AuraWell therapy alleviated pain associated with weight-bearing activities, jogging, running, and jumping, enabling the athlete to engage in higher-intensity movements.

Reduction of Inflammation: Chronic inflammation, a hindrance to full recovery, was effectively diminished through AuraWell's targeted approach. The treatment created an environment conducive to healing, facilitating the resolution of residual swelling and inflammation.

Holistic Healing: The athlete's functional activities steadily improved, with consistent reductions in pain and enhanced overall functionality even after the AuraWell treatment ceased.

Within the first few months of working with Aura,
we were able to:

Decrease Pain
