

CASE STUDY

Accelerated Recovery: AuraWell PEMF for MCL Sprain

Challenge

Ben, a 32-year-old professional plumber suffered a grade 2 MCL sprain in his right knee after slipping on ice. Ben faced pain, swelling, and instability that hindered his work and daily activities. Seeking to regain full mobility and stability in his knee, Ben was determined to find an alternative solution as traditional treatments had failed to deliver satisfactory results even after four weeks.

Solution

Ben turned to AuraWell PEMF for healing. He began using the PEMF machine, starting with a 15-minute session at an intensity level of 7, followed by subsequent treatments at higher intensities.

Get AuraWell Today. Experience the transformative benefits of AuraWell PEMF. Start your journey to a faster recovery by acquiring AuraWell today. Regain full functionality with this innovative technology.

Results

After just one treatment, Ben experienced an impressive 50% reduction in pain during activities and no soreness at rest. By the second treatment, his pain levels improved by 75%, allowing him to walk, climb ladders, and squat. By the third treatment, he achieved a remarkable 90% recovery, with no pain during normal activities and only mild soreness in the medial knee area.

Ben's journey demonstrates the remarkable benefits of high-frequency PEMF therapy. AuraWell PEMF's ability to address inflammatory and pain mediators, enhance local blood flow, and support normal cell interactions played a pivotal role in his accelerated healing and restored confidence in his right knee.

Within the first few months of working with Aura,
we were able to:

Decrease Pain
